Dear Mike.. The one input that I have it is that there is a least a minimum fee of 35.00 per month.. this is the least it would take to service an account.. Also this is unfair to the for profits that have the same cap but dont get fair share from creditors for doing the same work.. Ex/ 4 creditors 40. per month for profit 4 creditors 40. 00 per month non profit plus 3 to 15% more on fair share on an average of 400 disbursed or 12 to 60.oo per month... Also , the forprofits have to pay taxes and regular postage rates. You would think that the for profits would be able to charge more not less. Thank you Jerry Mc Taggart (I ahve been in this business for 50 years and help write the Michigan bill in 1975.)
