Subject: Uniform Law Commission regulations

March 17, 2011

To Whom It May Concern:

We are writing in opposition to the Uniform Law Commission's proposal to further regulate debt settlement services.

As a Debt Settlement organization we object to the unreasonable fee language which the ULC is attempting to use to impose more restrictions on our services. We believe that the fees being proposed do not work in the real world and that those fee caps would put our organization out of business.

Thank you.
