ABOUT NCCUSL

The National Conference of Commissioners on Uniform State Laws (NCCUSL), also known as Uniform Law Commission (ULC), now in its 117th year, provides states with non-partisan, well-conceived and well-drafted legislation that brings clarity and stability to critical areas of state statutory law.

ULC members must be lawyers, qualified to practice law. They are practicing lawyers, judges, legislators and legislative staff and law professors, who have been appointed by state governments as well as the District of Columbia, Puerto Rico and the U.S. Virgin Islands to research, draft and promote enactment of uniform state laws in areas of state law where uniformity is desirable and practical.

- ULC strengthens the federal system by providing rules and procedures that are consistent from state to state but that also reflect the diverse experience of the states.
- ULC statutes are representative of state experience, because the organization is made up of representatives from each state, appointed by state government.
- ULC keeps state law up-to-date by addressing important and timely legal issues.
- ULC's efforts reduce the need for individuals and businesses to deal with different laws as they move and do business in different states.
- ULC's work facilitates economic development and provides a legal platform for foreign entities to deal with U.S. citizens and businesses.
- Uniform Law Commissioners donate thousands of hours of their time and legal and drafting expertise every year as a public service, and receive no salary or compensation for their work.
- ULC's deliberative and uniquely open drafting process draws on the expertise of commissioners, but also utilizes input from legal experts, and advisors and observers representing the views of other legal organizations or interests that will be subject to the proposed laws.
- ULC is a state-supported organization that represents true value for the states, providing services that most states could not otherwise afford or duplicate.

DRAFTING COMMITTEE ON AMENDMENTS TO UNIFORM PRINCIPAL AND INCOME ACT

The Committee appointed by and representing the National Conference of Commissioners on Uniform State Laws in drafting these amendments consists of the following individuals:

SUZANNE BROWN WALSH, P.O. Box 271820, West Hartford, CT 06127, *Chair*TURNEY P. BERRY, 2700 PNC Plaza, Louisville, KY 40202
DAVID M. ENGLISH, University of Missouri-Columbia School of Law, Missouri Ave. & Conley Ave., Columbia, MO 65211

STANLEY C. KENT, 90 S. Cascade Ave., Suite 1210, Colorado Springs, CO 80903 MATTHEW S. RAE, JR., 600 John St., Manhattan Beach, CA 90266

EX OFFICIO

MARTHA LEE WALTERS, Oregon Supreme Court, 1163 State St., Salem, OR 97301-2563, *President*

AMERICAN BAR ASSOCIATION ADVISOR

STEVEN B. GORIN, 20 Saint Alfred Rd., St. Louis, MO 63132-4130, ABA Advisor

EXECUTIVE DIRECTOR

JOHN A. SEBERT, 111 N. Wabash Ave., Suite 1010, Chicago, IL 60602, Executive Director

Copies of this Act may be obtained from:

AMENDMENTS TO UNIFORM PRINCIPAL AND INCOME ACT

AMENDMENT 1

Section 409 is amended to read:

SECTION 409. DEFERRED COMPENSATION, ANNUITIES, AND SIMILAR PAYMENTS.

(a) In this section, "payment":

(1) "Payment" means a payment that a trustee may receive over a fixed number of years or during the life of one or more individuals because of services rendered or property transferred to the payer in exchange for future payments. The term includes a payment made in money or property from the payer's general assets or from a separate fund created by the payer, including:. For purposes of subsections (d), (e), (f), and (g), the term also includes any payment from any separate fund, regardless of the reason for the payment.

(2) "Separate fund" includes a private or commercial annuity, an individual retirement account, and a pension, profit-sharing, stock-bonus, or stock-ownership plan.

(b) To the extent that a payment is characterized as interest, or a dividend, or a payment made in lieu of interest or a dividend, a trustee shall allocate it the payment to income. The trustee shall allocate to principal the balance of the payment and any other payment received in the same accounting period that is not characterized as interest, a dividend, or an equivalent payment.

(c) If no part of a payment is characterized as interest, a dividend, or an equivalentpayment, and all or part of the payment is required to be made, a trustee shall allocate to income10 percent of the part that is required to be made during the accounting period and the balance to

1

principal. If no part of a payment is required to be made or the payment received is the entire amount to which the trustee is entitled, the trustee shall allocate the entire payment to principal. For purposes of this subsection, a payment is not "required to be made" to the extent that it is made because the trustee exercises a right of withdrawal.

(d) If, to obtain an estate tax marital deduction for a trust, a trustee must allocate more of a payment to income than provided for by this section, the trustee shall allocate to income the additional amount necessary to obtain the marital deduction. Except as otherwise provided in subsection (e), subsections (f) and (g) apply, and subsections (b) and (c) do not apply, in determining the allocation of a payment made from a separate fund to:

(1) a trust to which an election to qualify for a marital deduction under Section 2056(b)(7) of the Internal Revenue Code of 1986 [, as amended] [, 26 U.S.C. Section 2056(b)(7)] [, as amended], has been made; or

(2) a trust that qualifies for the marital deduction under Section 2056(b)(5) of the Internal Revenue Code of 1986 [, as amended] [, 26 U.S.C. Section 2056(b)(5)] [, as amended].

(e) Subsections (d), (f), and (g) do not apply if and to the extent that the series of payments would, without the application of subsection (d), qualify for the marital deduction under Section 2056(b)(7)(C) of the Internal Revenue Code of 1986 [, as amended] [, 26 U.S.C. Section 2056(b)(7)(C)] [, as amended].

(f) A trustee shall determine the internal income of each separate fund for the accounting period as if the separate fund were a trust subject to this [act]. Upon request of the surviving spouse, the trustee shall demand that the person administering the separate fund distribute the internal income to the trust. The trustee shall allocate a payment from the separate fund to income to the extent of the internal income of the separate fund and distribute that amount to the surviving spouse. The trustee shall allocate the balance of the payment to principal. Upon request of the surviving spouse, the trustee shall allocate principal to income to the extent the internal income of the separate fund exceeds payments made from the separate fund to the trust during the accounting period.

(g) If a trustee cannot determine the internal income of a separate fund but can determine the value of the separate fund, the internal income of the separate fund is deemed to equal [insert number at least three percent and not more than five percent] of the fund's value, according to the most recent statement of value preceding the beginning of the accounting period. If the trustee can determine neither the internal income of the separate fund nor the fund's value, the internal income of the fund is deemed to equal the product of the interest rate and the present value of the expected future payments, as determined under Section 7520 of the Internal Revenue Code of 1986 [, as amended] [, 26 U.S.C. Section 7520] [, as amended], for the month preceding the accounting period for which the computation is made.

(e)(h) This section does not apply to payments a payment to which Section 410 applies.

* * *

Marital deduction requirements. When an IRA is payable to a QTIP marital deduction trust, the IRS treats the IRA as separate terminable interest property and requires that a QTIP election be made for it. In order to qualify for QTIP treatment, an IRS ruling states that all of the IRA's income must be distributed annually to the QTIP marital deduction trust and then must be allocated to trust income for distribution to the spouse. Rev. Rul. 89-89, 1989-2 C.B. 231. If an allocation to income under this Act of 10% of the required distribution from the IRA does not meet the requirement that all of the IRA's income be distributed from the trust to the spouse, the provision in subsection (d) requires the trustee to make a larger allocation to income to the extent necessary to qualify for the marital deduction. The requirement of Rev. Rul. 89-89 should also be satisfied if the IRA beneficiary designation permits the spouse to require the trustee to withdraw the necessary amount from the IRA and distribute it to her, even though the spouse never actually requires the trustee to do so. If such a provision is in the beneficiary designation, a distribution under subsection (d) should not be necessary.

Marital deduction requirements. When an IRA or other retirement arrangement (a

"plan") is payable to a marital deduction trust, the IRS treats the plan as a separate property interest that itself must qualify for the marital deduction. IRS Revenue Ruling 2006-26 said that, as written, Section 409 does not cause a trust to qualify for the IRS' safe harbors. Revenue Ruling 2006-26 was limited in scope to certain situations involving IRAs and defined contribution retirement plans. Without necessarily agreeing with the IRS' position in that ruling, the revision to this section is designed to satisfy the IRS' safe harbor and to address concerns that might be raised for similar assets. No IRS pronouncements have addressed the scope of Code § 2056(b)(7)(C).

<u>Subsection (f) requires the trustee to demand certain distributions if the surviving spouse</u> so requests. The safe harbor of Revenue Ruling 2006-26 requires that the surviving spouse be separately entitled to demand the fund's income (without regard to the income from the trust's other assets) and the income from the other assets (without regard to the fund's income). In any event, the surviving spouse is not required to demand that the trustee distribute all of the fund's income from the fund or from other trust assets. Treas. Reg. § 20.2056(b)-5(f)(8).

<u>Subsection (f) also recognizes that the trustee might not control the payments that the trustee receives and provides a remedy to the surviving spouse if the distributions under subsection (d)(1) are insufficient.</u>

Subsection (g) addresses situations where, due to lack of information provided by the fund's administrator, the trustee is unable to determine the fund's actual income. The bracketed language is the range approved for unitrust payments by Treas. Reg. § 1.643(b)-1. In determining the value for purposes of applying the unitrust percentage, the trustee would seek to obtain the value of the assets as of the most recent statement of value immediately preceding the beginning of the year. For example, suppose a trust's accounting period is January 1 through December 31. If a retirement plan administrator furnishes information annually each September 30 and declines to provide information as of December 31, then the trustee may rely on the September 30 value to determine the distribution for the following year. For funds whose values are not readily available, subsection (g) relies on Code section 7520 valuation methods because many funds described in Section 409 are annuities, and one consistent set of valuation principles should apply whether or not the fund is, in fact, an annuity.

AMENDMENT 2

Section 505 is amended to read:

SECTION 505. INCOME TAXES.

(a) A tax required to be paid by a trustee based on receipts allocated to income must be

paid from income.

(b) A tax required to be paid by a trustee based on receipts allocated to principal must be paid from principal, even if the tax is called an income tax by the taxing authority.

(c) A tax required to be paid by a trustee on the trust's share of an entity's taxable income must be paid proportionately:

(1) from income to the extent that receipts from the entity are allocated <u>only</u> to income; and

(2) from principal to the extent that:

entity.

(A) receipts from the entity are allocated <u>only</u> to principal; and

(B) the trust's share of the entity's taxable income exceeds the total receipts described in paragraphs (1) and (2)(A).

(3) proportionately from principal and income to the extent that receipts from the entity are allocated to both income and principal; and

(4) from principal to the extent that the tax exceeds the total receipts from the

(d) For purposes of this section, receipts allocated to principal or income must be reduced by the amount distributed to a beneficiary from principal or income for which the trust receives a deduction in calculating the tax. After applying subsections (a) through (c), the trustee shall adjust income or principal receipts to the extent that the trust's taxes are reduced because the trust receives a deduction for payments made to a beneficiary.

Electing Small Business Trusts. An Electing Small Business Trust (ESBT) is a creature created by Congress in the Small Business Job Protection Act of 1996 (P.L. 104–188). For years beginning after 1996, an ESBT may qualify as an S corporation stockholder even if the trustee does not distribute all of the trust's income annually to its beneficiaries. The portion of an ESBT that consists of the S corporation stock is treated as a separate trust for tax purposes (but not for trust accounting purposes), and the S corporation income is taxed directly to that portion of the

trust even if some or all of that income is distributed to the beneficiaries.

A trust normally receives a deduction for distributions it makes to its beneficiaries. Subsection (d) takes into account the possibility that an ESBT may not receive a deduction for trust accounting income that is distributed to the beneficiaries. Only limited guidance has been issued by the Internal Revenue Service, and it is too early to anticipate all of the technical questions that may arise, but the powers granted to a trustee in Sections 506 and 104 to make adjustments are probably sufficient to enable a trustee to correct inequities that may arise because of technical problems.

<u>Taxes on Undistributed Entity Taxable Income.</u> When a trust owns an interest in a pass-through entity, such as a partnership or S corporation, it must report its share of the entity's taxable income regardless of how much the entity distributes to the trust. Whether the entity distributes more or less than the trust's tax on its share of the entity's taxable income, the trust must pay the taxes and allocate them between income and principal.

Subsection (c) requires the trust to pay the taxes on its share of an entity's taxable income from income or principal receipts to the extent that receipts from the entity are allocable to each. This assures the trust a source of cash to pay some or all of the taxes on its share of the entity's taxable income. Subsection 505(d) recognizes that, except in the case of an Electing Small Business Trust (ESBT), a trust normally receives a deduction for amounts distributed to a beneficiary. Accordingly, subsection 505(d) requires the trust to increase receipts payable to a beneficiary as determined under subsection (c) to the extent the trust's taxes are reduced by distributing those receipts to the beneficiary.

Because the trust's taxes and amounts distributed to a beneficiary are interrelated, the trust may be required to apply a formula to determine the correct amount payable to a beneficiary. This formula should take into account that each time a distribution is made to a beneficiary, the trust taxes are reduced and amounts distributable to a beneficiary are increased. The formula assures that after deducting distributions to a beneficiary, the trust has enough to satisfy its taxes on its share of the entity's taxable income as reduced by distributions to beneficiaries.

Example (1) – Trust T receives a Schedule K-1 from Partnership P reflecting taxable income of \$1 million. Partnership P distributes \$100,000 to T, which allocates the receipts to income. Both Trust T and income Beneficiary B are in the 35 percent tax bracket. Trust T's tax on \$1 million of taxable income is \$350,000. Under Subsection (c) T's tax must be paid from income receipts because receipts from the entity are allocated only to income. Therefore, T must apply the entire \$100,000 of income receipts to pay its tax. In this case, Beneficiary B receives nothing.

Example (2) - Trust T receives a Schedule K-1 from Partnership P reflecting taxable income of \$1 million. Partnership P distributes \$500,000 to T, which allocates the receipts to income. Both Trust T and income Beneficiary B are in the 35 percent tax bracket. Trust T's tax on \$1 million of taxable income is \$350,000. Under Subsection (c), T's tax must be paid from income receipts because receipts from P are allocated only to income. Therefore, T \$150,000 payment to B reduces T's taxes by \$52,500, which it must pay to B. But the \$52,500 further reduces T's taxes by \$18,375, which it also must pay to B. In fact, each time T makes a distribution to B, its taxes are further reduced, causing another payment to be due B.

<u>Alternatively, T can apply the following algebraic formula to determine the amount payable to B:</u>

D = (C - R * K)/(1 - R)

 $\frac{D = Distribution to income beneficiary}{C = Cash paid by the entity to the trust}$ $\frac{R = tax rate on income}{K = entity's K-1 taxable income}$

Applying the formula to Example (2) above, Trust T must pay \$230,769 to B so that after deducting the payment, T has exactly enough to pay its tax on the remaining taxable income from P.

Taxable Income per K-1	<u>l</u>	<u>1,000,000</u>
Payment to beneficiary		<u>230,769¹</u>
Trust Taxable Income		<u>\$ 769,231</u>
<u>35 percent tax</u>	<u>269,231</u>	

Partnership Distribution	<u>\$ 500,000</u>
Fiduciary's Tax Liability	(269,231)
Payable to the Beneficiary	<u>\$ 230,769</u>

In addition, B will report \$230,769 on his or her own personal income tax return, paying taxes of \$80,769. Because Trust T withheld \$269,231 to pay its taxes and B paid \$80,769 taxes of its own, B bore the entire \$350,000 tax burden on the \$1 million of entity taxable income, including the \$500,000 that the entity retained that presumably increased the value of the trust's investment entity.

If a trustee determines that it is appropriate to so, it should consider exercising the discretion granted in UPIA section 506 to adjust between income and principal. Alternatively, the trustee may exercise the power to adjust under UPIA section 104 to the extent it is available and appropriate under the circumstances, including whether a future distribution from the entity that would be allocated to principal should be reallocated to income because the income beneficiary already bore the burden of taxes on the reinvested income. In exercising the power, the trust should consider the impact that future distributions will have on any current adjustments.

 $^{^{1}}$ D = (C-R*K)/(1-R) = (500,000 - 350,000)/(1 - .35) = \$230,769. (D is the amount payable to the income beneficiary, K is the entity's K-1 taxable income, R is the trust ordinary tax rate, and C is the cash distributed by the entity).

AMENDMENT 3

Section 606 is added to read:

ALTERNATIVE A

SECTION 606. TRANSITIONAL MATTERS. Section 409, as amended by this

[amendment], applies to a trust described in Section 409(d) on and after the following dates:

(1) If the trust is not funded as of [the effective date of this [amendment]], the date of the decedent's death.

(2) If the trust is initially funded in the calendar year beginning January 1, _____ [insert year in which this [amendment] takes effect], the date of the decedent's death.

(3) If the trust is not described in paragraph (1) or (2), January 1, [insert year in which this [amendment] takes effect].

ALTERNATIVE B

SECTION 606. TRANSITIONAL MATTERS. Section 409 applies to a trust

described in Section 409(d) on and after the following dates:

(1) If the trust is not funded as of [the effective date of this [act]], the date of the

decedent's death.

(2) If the trust is initially funded in the calendar year beginning January 1, _____ [insert

year in which this [act] takes effect], the date of the decedent's death.

(3) If the trust is not described in paragraph (1) or (2), January 1, _____ [insert year in

which this [act] takes effect].

END OF ALTERNATIVES

Legislative Note: Use Alternative A if your state has already enacted the Uniform Principal and Income Act. Use Alternative B if your state has not enacted the Uniform Principal and Income Act.

If your state has not adopted the Uniform Principal and Income Act, use the text of Sections 409 and 505, as amended by these amendments, instead of the text of the previous version of those Sections.
